Quality of the Microfiche Reproduction

Micromedia Limited maintains the highest standards for micrographic reproduction. Attempts are made to obtain the best quality print version to microfilm. However, there are some printing styles, colours and graphic layout styles (including maps, graphs and tables) which do not reproduce well. Because of the value of the original document, Micromedia has filmed it recognizing that it may not be as easy to read as the original document.

Some pages have been filmed twice to improve the clarity of the reproduction. Consult both reproductions to ensure that all of the original text is read.

Inventory of SIAST Approved Programs at June 30, 2002

Overview

Explanatory Notes

The Inventory of SIAST Approved Programs, at June 30, 2002, includes all programs, each identified by title, length, assigned division, campus location(s), and the credential awarded upon completion. The comprehensive inventory includes all full-time and part-time programs. Noting the following points of explanation will assist in the use of this inventory as a reference:

a) Programs with multi-site offerings are considered one program. For example, Welding in the Industrial division (page 6) is offered at Kelsey, Palliser, Wascana and Woodland Campuses. Each location offers the same credential (certificate), so these are considered the same program.

b) Programs with dual credentials are considered separate programs, even if the titles are the same. The following programs have two of the applied certificate, certificate, advanced certificate, and diploma credentials and each credential is considered a separate program – therefore 20 programs:

- Chemical Dependency Worker
- Media Arts Production
- Youth Care Worker
- Power Engineering
- Human Resource
- Early Childhood Education
- Rehabilitation Worker
- Health Information Services
- Process Operator
- Water Resources Engineering

c) The *Notes* column in the inventory provides various types of information, such as:
- recently approved programs
- revisions to existing programs
- co-partnered programs
- programs offered at locations other than the four SIAST campuses (off- campus). The off-campus offerings can differ from year to year, depending on demand for the program
- programs that are non-core funded
- programs/courses offered through the Virtual Campus
- other specific characteristics of programs

d) Each program has been assigned a number. The assigned number refers to a coding system developed for the complete database of programs used in the Planning, Research and Development (PR&D) division. The attached inventory of SIAST approved programs is extracted from the full database. The numbers that have been assigned to programs will always be attached to the specific programs even if they have been discontinued, therefore the list may appear to be out of order. The program inventory is listed by division. A sub-total of the programs is provided at the end of each division.

e) The inventory also identifies the 27 apprenticeship training programs, offered with the Apprenticeship and Trade Certification Commission (page 14).

SIAST Approved Programs

Overall, SIAST offers **201 programs**, which include 174 credit and 27 apprenticeship programs. The credentials for these programs are:

Applied certificate	44
Certificate	69
Advanced certificate	10
Diploma	51
Credit programs	174
Apprenticeship programs	27
TOTAL programs	**201**

The 201 programs include:

a) ***Ten new programs approved [July 2001 - June 2002]:***
- i) **Advanced Heavy Equipment Operator** - Industrial Training (applied certificate)
- ii) **Computer Office Assistant** – Business and Agriculture (advanced certificate)
- iii) **Helpdesk/ Network Operations** – Business and Agriculture (certificate)
  The certificate credential is awarded upon completion of all three following programs, which individually yield an applied certificate:
- iv) **Basic Computer Applications** (applied certificate)
- v) **Helpdesk** (applied certificate)
- vi) **Network Operations** (applied certificate)
- vii) **Process Operator – Level 1** – Technology (applied certificate)
- viii) **Process Operator – Level 2** – Technology (applied certificate)
- ix) **Process Operator – Level 3** – Technology (applied certificate)
- x) **Resource and Environmental law** – Technology (diploma)

b) ***The discontinuation of 23 programs [July 2001 - June 2002]:***
- i) **Accounting Clerk** – Business and Agriculture
- ii) **Advanced Ceramics** – Community Services
- iii) **Administrative Office Assistant** – Business and Agriculture
- iv) **Ceramic Foundations** – Community Services
- v) **Ceramics Sculpture** – Community Services
- vi) **Computer Clerk** – Business and Agriculture
- vii) **Computerized Office Assistant** – Business and Agriculture
- viii) **Construction Materials** - Technology
- ix) **Construction Surveying** – Technology
- x) **Farm Business Management** – Business and Agriculture
- xi) **Farm Mechanics** – Business and Agriculture
- xii) **Fibreglass Fabrication** – Industrial Training Program
- xiii) **Fundamentals of Construction Technology** – Technology
- xiv) **Home-based Nursing (LPN)** – Nursing
- xv) **Home-based Nursing (RN/RPN)** - Nursing
- xvi) **ISO9000 Quality Management** – Business and Agriculture
- xvii) **Managing a Craft Business** – Community Services
- xviii) **Medical Stenographer** – Business and Agriculture
- xix) **Pork Production Technician** – Business and Agriculture (now offered only as an apprenticeship program)
- xx) **Solid Waste Management** – Technology
- xxi) **Stenographer** – Business and Agriculture
- xxii) **Subdivision Planning** – Technology
- xxiii) **Recreational Vehicle Technician** – Industrial Training

c) Apprenticeship programs

SIAST offers 27 Apprenticeship training programs that are certified with the Apprenticeship and Trade Certification Commission, and included in the total program listing of 201.

Apprenticeship programs have undergone the following changes from last year:

i) the addition of 2 new programs:
- Custom Harvester
- Electronics Assembler

ii) the discontinuation at SIAST of 2 programs:
- Cement Finisher
- John Deere Agricultural Parts Training

Two programs, **Barber Stylist** and **Cosmetologist**, are apprenticeable trade programs and are not included in the list of 27 apprenticeship programs. With apprenticeable trade programs, students must take all classroom training prior to working in the industry. These two programs are listed within the SIAST certificate programs in the Community Services Division.

d) Virtual Campus

The following programs and courses are available on-line through the Virtual Campus:

Programs
- Electrician Apprenticeship Level 1
- Emergency Medical Technician Advanced Program

Courses
- Business
- Forestry
- Nursing

Additional courses are currently under development. Information on the programs and courses is available at the www.siast.sk.ca/virtualcampus web page.

Basic Education Programs

An additional feature to the report this year was the inclusion of the Basic Education programs. There are 17 programs offered at SIAST [these are not included in the 201 total of credit programs].

The Nursing Education Program of Saskatchewan (NEPS) is offered through a partnership of the Nursing Division, Saskatchewan Institute of Applied Science and Technology (SIAST), and the College of Nursing, University of Saskatchewan (U of S) leading to a Bachelor of Science in Nursing (BScN). The first two years of the program are offered by the Nursing Division, SIAST and the final years are offered by the College of Nursing, U of S. The complete 4-year degree program is offered in Regina and Saskatoon, and graduates are eligible to apply for licensure with the Saskatchewan Registered Nurses Association (SRNA). Successful completion of the national licensure exams is a requirement for professional designation and licensure as a Registered Nurse (RN).

Normally a 4-year degree program, fast track and part time options can be considered. Students who have completed all non-nursing courses prior to the end of year 3 can be considered for a 3-½ year option. (Completion Dec. year 4) or a 3-year option (Completion Sept. year 4). Application to NEPS is made to the SIAST Registrar's office.

Apprenticeship Training Programs Offered at SIAST: Total - 27

These programs are not totalled with the SIAST approved program listing in the previous pages.

Apprenticeship training programs are those where employees are indentured as apprentices to work in industry and learn a trade to gain journeyperson status, while at the same time completing determined periods of training at SIAST.

As well as training at SIAST, additional apprenticeship training is conducted by other training facilities in the province.
